Dear Ms. Stewart,

Thank you so much for allowing your students to participate in our STEM program at Greenbrier Family Skating Center. Our STEM staff was so impressed with how respectful and kind all your students were. I remember how exciting those half days can be before break. It's hard to focus when you are so excited for the morning to be over so you can finally go on your spring break! The Stonebridge students were SO attentive during the lesson portion of the field trip and were truly a delight to spend the morning with. It was a joy for me to be able to spend Good Friday singing songs about Jesus and watch them all sing, laugh and praise the Lord while they skated! Thank you for giving us the opportunity to share our STEM program with you all. I hope that all teachers and students had fun. We hope to have your school back in the 2022-2023 school year.

Sincerely,
Sarah Fail Mitchell
Assistant Director of STEM Operations
